

HINTS & TIPS

Iron 'n Fuse™

WONDERFUL™
SPECIALTY THREADS

ABOUT

Iron 'n Fuse™ is a unique and practical 40wt fusible vinylon thread. This thread can be used to lift, move or restrict the movement between fabric layers, and lining up corners. To use Iron 'n Fuse™, simply iron the layers, then pull the top thread out.

Available in 183 m (200 yd.) spools.

APPLICATIONS

Ideal as a bobbin or top thread in your domestic machine or serger. Excellent for appliqué, lining up corners, matching plaids, binding and zippers.

SEWING:

To increase the sticking power, use a zigzag stitch or wide stitch for best results. Keep in mind that as the Iron 'n Fuse™ thread melts, the upper thread will be released.

THREAD

40wt - Fusible Vinylon

Finish: solid matte

BOBBIN THREAD

- DecoBob™

- Iron 'n Fuse™

RECOMMENDED NEEDLE SIZES

Machine:

- 80/12 machine

Hand:

- #10 sharp for hand basting
(This thread may also be laid on the fabric)

USES

Use Iron 'n Fuse™ for fusing layers of fabric together. In the bobbin, Iron 'n Fuse™ is ideal for appliqué, lining up mitre corners, binding, zippers and matching plaids.
